

TXAMPumps

TXA/TXCH-1/2 HP

The TXA-1/2 HP is TXAM's crank down style atomizer tool for use in high pressure atomization applications. With an operating pressure of up to 5000 PSI it is capable of meeting your chemical injection atomizing needs.

The TXCH-1/2 HP is TXAM's crank down coupon holder with the same body style and pressure rating.

Various travel lengths available with customer length by request.

Please contact your local TXAM sales representative for more details.
