

TXAMPumps

TXCH-1 LP

The TXCH-1 LP is TXAM's push down style coupon tool for use in low pressure applications. With a max pressure of 1000 PSI and 316 stainless steel construction it can be installed in any existing low pressure application in the field for measuring corrosion levels. The TXCH-1 LP is a low cost option for coupon corrosion testing.

Available in a range of travel lengths.

Please contact your local TXAM sales representative for more details.
